Anthony Suh

(310) 905-9326 | ant.suh1028@gmail.com | linkedin.com/in/anthonysuh

EDUCATION

University of California, Irvine   Irvine, CA
Bachelor of Computer Science   *Expected June 2026*

TECHNICAL SKILLS

Languages: JavaScript, Java, TypeScript, C++, Python, HTML/CSS
Frameworks: React, Node.js, Express, PyTorch, Tailwind CSS, Vite, Chakra UI
Developer Tools: Git, Postman, Figma
Cloud Services: AWS (EC2, S3, Lightsail)
Databases: MongoDB, PostgreSQL, Firebase

EXPERIENCE

Software Development Intern   April 2025 – Present
AdamsFoods   *Los Angeles, CA*
- Built B2B wholesale platform using React, Node.js, and PostgreSQL with product catalog for **20+** items, admin dashboard, and order processing system, acquiring **10+** new restaurant clients
- Designed custom system architecture integrating customer-facing interface with inventory management backend from previous internship, enabling real-time stock availability and automated order synchronization
- Implemented AWS S3 license storage and order tracking, reducing processing time by **35%** and facilitating **$7,000+** in wholesale orders

Software Development Intern   June 2024 – September 2024
AdamsFoods   *Los Angeles, CA*
- Engineered full-stack (AWS Lightsail, React, JavaScript, Html/CSS, MongoDB, Express) web application for CRUD supply chain management, enabling tracking of **300+** products and preventing **$15,000/month** in losses
- Automated multi-step inventory process, replacing handwritten logs and redundant data entry, saving **5–7 hours** weekly and eliminating transcription errors
- Led complete development lifecycle, including system design and AWS deployment

Full-Stack Developer   June 2024 – Present
Commit the Change @ UCI - La Peña Cultural Center   *Irvine, CA*
- Contributed to full-stack development in a **15-person** team for nonprofit cultural center platform using React, Node.js, Express, and PostgreSQL
- Led migration from paper-based to digital information storage and streamlined class scheduling by **50%** through automated calendar and registration features for **20+** weekly cultural classes

Supply Chain Intern   June 2023 – September 2023
AdamsFoods   *Los Angeles, CA*
- Optimized inventory management processes by digitizing paper records and implementing Excel tracking systems for vendor coordination and logistics workflow documentation
- Analyzed supply chain operations and documented procurement procedures, successfully training new team members on warehouse and distribution protocols

PROJECTS

Homesteadr: Real Estate Management Platform | *Hack@UCI*   2024
- Built React application with Firebase backend connecting **100+** news articles to **50+** real estate listings using Groq AI for location keyword extraction
- Implemented Google Maps API with **150+** custom property markers and created data pipeline processing **1000+** property records

DineSafe: Restaurant Health Inspection Platform | *2nd Place Winner, UCI Hackathon*   2025
- Collaborated in a team of **4** to create a full-stack MERN (MongoDB, Express, React, Node.js) application visualizing health inspection data for **400+** Orange County restaurants
- Developed a Python script utilizing web scraping and OpenAI's GPT API for automated report summarization
- Built interactive map interface with Google Maps API that features real-time geolocation and custom markers
- Implemented RESTful API with Express.js and MongoDB that handled **300+** documents
